PINCH IN MARKET
LAST DAY IN YEAR

Tightness of Money Has Restraining Influence on Transactions in Stocks.

SHARP RALLY IN CLOSE

This Accepted as Proclamation of a Satisfactory Settlement of Difficulties.

NEW YORK, December 31.—The last day of the year did not pass without a pinch in the money market, and this was a constraint on the stock market. But more influence on sentiment was caused by the persistent rumors of financial embarrassment growing out of financial market losses. Before the day was over it was made to be understood that arrangements had been concluded to avert the threatened embarrassment. The relief to speculative sentiment was manifest, and the tone of depression in the market largely disappeared. The recoveries which followed were more a matter of price adjustment than a response to any large transactions. There were some very wild fluctuations in trading in the opening hours, successive transactions being made at variations of a point, and even 11-2 points—a very unusual fluctuation for an active stock in large volume in the market. There was pronounced pressure also on the Hill stocks, and to a less extent on St. Paul and Union Pacific. The wide declines in the Hill stocks were the new issues of stock were announced have involved some severe speculative losses, and the amount of these stocks held on margin proved much larger than was suspected. The severe shrinkage in the market placed some accounts in a curious situation. A long delay in the passing of the Stock Exchange clearing-house sheets today added to the anxiety, and there was evident uneasiness and nervousness in the early trading. The sharp rally in the market came without any official announcement of steps taken, but was accepted as proclamation of a satisfactory settlement of difficulties.

St. Paul subscribers to new stock had to make a 10 per cent. payment today, and this added to the burden of the preparations for the enormous payments of the new year. The hope of a prompt relaxation in the money market after the turn of the year is clouded by some of the possible complications. Advances from London indicate the continued solicitude with which that centre would regard any withdrawal of gold for New York account, even after the turn of the year. Time money was again easier today, and sterling exchange was strong. The more cheerful tone of the latter stock market was maintained, and the closing tone was strong and at the best prices of the day. Bonds were heavy. Total sales, par value, \$1,739,000. United States bonds were unchanged on call. Capital sales \$50,900 shares.
